

MAREX 360 Cabriolet Cruiser

“

Peace is found in a
better boat

Luxury family adventure

The innovative design of the 360 CC allows for exceptional three seasons enjoyment. The advanced hull geometry of the impressive planing cruiser delivers the luxury of a superior ride and comfort.

Thanks to the hull design, 360 Cabriolet Cruiser delivers a lovely soft ride, precise manoeuvrability, and best-in-class sea handling. She offers ultra-quiet and superior comfort for

relaxing, dining, and entertaining. With the ability to quickly open up and soak in the sun or close up when unpredictable weather changes, Marex 360 CC is perfectly suited for Scandinavian or Mediterranean coastal cruising.

Every solution on the 360 CC shows a practical design that focuses on the enjoyment of each family member or guest.

Beach club deck

The 360 CC swim platform offers a variety of practical features for water recreation and entertainment. It is a spacious social area perfect for activities like evening fishing or morning coffee. Additionally, it provides convenient storage under benches for fenders, ropes, water

toys, and other items that may get wet.

Lift the tender onto the 360 CC's swim platform with a unique hidden davit solution. Tender storage does not affect the use of the swim ladder, which is located portside.

“

Hooked on that
summer feeling

The perfect lunch

The Marex 360 CC demonstrates one of the most spacious convertible cockpits in its class. Whether you're soaking up the sun, dining with friends, or hosting a lively gathering, she can accommodate up to 10 guests. It's the perfect spot for entertainment and relaxation on the water.

The U-shaped sofa allows all guests to relax and feel social thanks to its clever layout. It smartly uses all four seat corners and gives splendid space for the whole family. The table lowers, and the sofa can be converted into a sunbed over two meters/6.8 feet long.

COCKPIT

MAREX

KING OF THE SEA

Incredible storage

The storage compartments in the cockpit benches have an impressive internal volume beyond what you usually find in boats of this size. A large under-deck compartment at the galley is large enough for a rescue fleet. The space in the benches on the swim platform adds a new dimension to practicality. Easy storage for fenders, ropes, fish rods, and toys simplifies life onboard.

Forward-facing sofa

A triple co-pilot seating arrangement allows family members to enjoy the captain's view while cruising. LED light integrated into the ceiling rail makes the sofa a perfect place for reading in the evening.

Welcoming **space**

Using natural materials in the interior, such as teak wood, adds warmth and a comfy feeling to the interior of the 360 CC. Below the deck, you can find a generous accommodation for a longer trip.

The cabins

The forward cabin features a double bed, plenty of storage space, and a high ceiling. Windows in the hull let you adore the sea waking up. The midship cabin has a large king-size double bed, a full-height wardrobe, and a comfy sofa. Both cabins are filled with natural light and good ventilation.

The bathroom

The voluminous bathroom with many cupboards makes the trip more comfortable. It is divided into two compartments and has a full-height large shower with a bench and easy-to-clean surfaces.

Spacious galley

The U-shaped galley on the 360 CC is cleverly designed with an ingenious flip-up worktop, perfect for gourmet cooking. Customize it with your preferred kitchen gadgets and begin your culinary adventure. This galley includes a large double-drawer fridge, freezer, double sink, stove, oven, and plenty of storage space.

Smart Cockpit Canopy

An innovative enclosure and an easy sliding roof form a protective cover over the cockpit in seconds. Converting the boat to an open cabriolet is quick and simple and is the quickest solution on the market. Pull the canopy sides out from side storage and close them like a curtain. You can protect one side or the whole cockpit from wind or create a lovely sunshade. A powerful heater gives you the comfort you wish for in spring and autumn.

The Windscreen Door

A handy door in the windscreen affords quick, safe, and direct access to the foredeck. The wide side passages also allow the captain and guests to move easily around the boat.

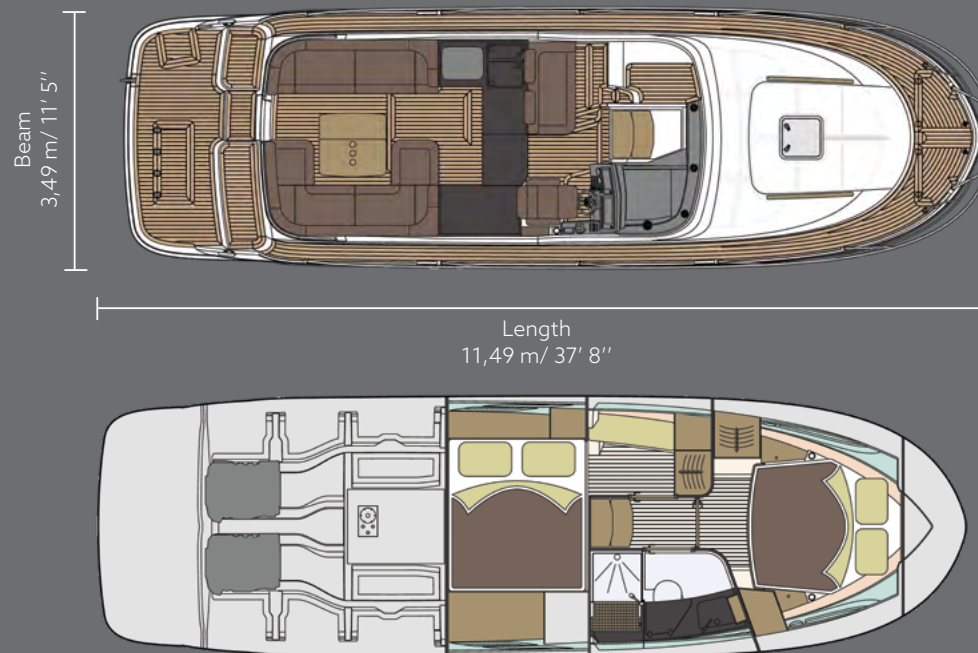

Clean ergonomics

Captain-friendly ergonomics are a part of the Marex DNA. The instrumentation and throttles are close to hand, providing excellent ergonomics and great visibility both sitting and standing. The two chartplotter options are great navigation aids. Anti-reflective finishes guarantee comfortable

cruising and a fashionable look. Marex offers several motorization options: a single or a pair of Volvo Pentas with outputs of 440 to 640 hp, capable of reaching a maximum speed of up to 38 knots, and two Mercury Diesels with outputs of 270 hp each.
