Life between  
*destinations*”

## A New Generation Cruiser

The new Marex 390 is a model developed from more than 50 years of experience in boat design and production. Shaped around what people value most in family boating, it seamlessly blends generous outdoor areas with cozy, comfortable interiors. Every detail is inspired by feedback from those who know Marex best — our owners.

Created in collaboration with VOM Creations, the Marex 390 features an elegant, timeless profile combined with long hull windows that flood the interior with natural light and give the boat a sleek, contemporary appearance. Together with Alpha Creations, the Marex design team has developed a warped hull with a variable V-shape, ensuring smooth, stable cruising and excellent fuel efficiency.

ERGONOMICS

## Cockpit with many possibilities

The cockpit of the Marex 390 invites relaxed conversation and shared meals. Generous, exceptionally comfortable seating and a large, extendable table create space for up to ten guests. The overhead rack provides practical evening lighting for reading, while soft ambient LED lighting around the railings creates a cozy atmosphere.

Every detail, from the thoughtful layout to the deep corner cup holders, contributes to a calm, welcoming environment on board.

## Smart Cockpit Canopy

An innovative enclosure and sliding roof cover the aft cockpit in seconds. You can quickly change the boat from completely open to fully enclosed. Simply pull the canopy sides from their integrated storage and slide them out like curtains. Block the wind on one or all sides, or create full shade over the cockpit.

With Marex's signature enclosure, the cockpit can be comfortably heated or cooled, extending the boating season in any climate.

## Galley

It is compact yet well equipped for comfortable days on board. All the right practical features — including generous fridge and freezer capacity, as well as plenty of drawers and storage — make cooking on board a pleasure. Owners can choose between a gas cooker or an induction cooker when a generator is installed. Solar panels on the roof help keep the fridge and lighting powered, even when you are far from shore.

*Thoughtful* design for  
*real* moments

## Beach Club Table

The clever table on the swim platform can be set up or stowed away in seconds. It's the perfect spot for a morning coffee, a sunset drink, or simply enjoying the sea up close. It quickly becomes a favourite place on board.

## Side door

True to Marex tradition, the signature pilot door provides quick and easy access to the side deck, making docking smoother and safer. It is a valuable feature for the captain and also allows fresh air to flow naturally through the saloon, adding both comfort and convenience on board.

## Co-pilot space

The sofa section easily flips into a comfortable forward-facing seat, perfect for keeping the captain company while cruising. Flip up the foldable table — ideal for catching up on work or enjoying a quick meal or a coffee.

## Dream Comfort

The accommodation on the Marex 390 is designed to deliver true home comfort. Both the forward and midship cabins feature generous double beds with premium mattresses, ensuring excellent sleeping comfort, well worth it. Spacious wardrobes and generous standing height further enhance the overall sense of space and comfort.

## Head

A well-planned restroom includes a separate shower and offers plenty of space for bathroom essentials. It enhances the home-like atmosphere, while large lower-deck windows fill the space with natural light, creating a bright and airy ambience.

## Midship cabin

The midship cabin features a spacious, luxurious king-size bed. A comfortable sofa creates a relaxing space for reading or scrolling and can also be used as an extra berth for children. A large commode and hanging cabinets provide generous storage, while elegant surface finishes enhance the cabin's warm, inviting atmosphere. Wide opening windows allow fresh air to flow in and offer beautiful views of the sea.

# MAREX

KING OF THE SEA

## Swim platform

The innovative swim platform creates an inviting beach club right at water level. The aft benches offer a comfortable place to relax and are also designed for practical storage of water toys, fenders, and ropes. An optional integrated davit system folds out to lift and launch a tender effortlessly.

## Sunpad

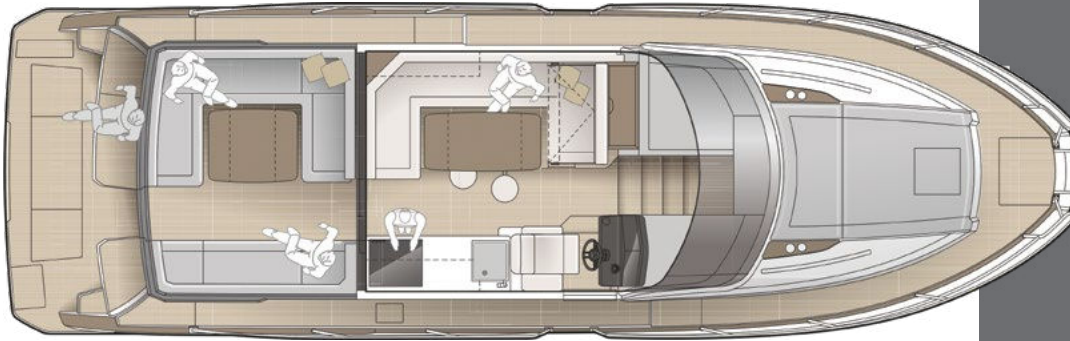

The adjustable backrest allows the sunpad to be easily set into a chaise-longue position. When you're ready for even more fun, simply unclip the foredeck sun mattress and place it directly on the water. Thanks to its special filling, it can also be used as a floating water toy. Relax and enjoy the sea, wherever you choose to drop anchor.

## Main deck

## Lower deck

## Power performance

The Marex 390 is available with several engine options. Choose between sterndrives or shafts. Generous fuel and water tank capacities make the boat ideal for extended journeys.
